

NORTHWEST
FOOTBALL AWARDS

2019

Community Club of the Season (all other leagues)

The judges will be looking for clear commitment to the local community from any professional league football club outside of the Premier League. Please tell us what projects, schemes or initiatives your Club has delivered in the 2018/19 season, which make you stand out from the rest. We want to hear about local partners involved, together with any key challenges or obstacles encountered along the way. We want to see player and fan engagement in community projects too.

We are looking for examples of the impact of your Club's dedication to community support, including statistical information and soft outcomes, and its success. Please supply at least one reference/testimonial from any partners involved.

In your opinion, why should a Club support its local community?
