FOOTBALL AWARDS

2022

Community Club of the Season (Premier League)

The judges will be looking for clear commitment to the local community from a Premier League Club. Please tell us what projects, schemes or initiatives your Club has delivered in the 2021/22 season, which make you stand out from the rest? We want to hear about local partners involved, together with any key challenges or obstacles encountered along the way. We want to see evidence of player and fan engagement in community projects too.

We are looking for examples of the impact of your Club's dedication to community support, including statistical information and soft outcomes, and its success. Please supply at least one reference/testimonial from any partners involved.
